Client: City of London

Location: ~~Horton Street Phase 2~~, London, Ont.

Project Type: Infrastructure / Lifecycle Renewal Program

Completion Date: Summer, 2013 **2021**

SEE WORD DOC.
DESCRIPTION

AGM was hired as lead consultant for this high profile project to improve the infrastructure of this major arterial road in London. The tasks included replacement of old sewers with new two-pipe (sanitary/storm) system, new water mains, sewers drains, surface works, boulevard enhancements and overseeing traffic management.

The project also included two public meeting presentations, and coordination of notice letters to affected residents and businesses. The enhanced road has received big nods from residents and businesses alike.
